Abstract:

JP 2001342355 A

NOVELTY Foaming type fire proofing composition with water proofing property contains

- (A) thermoplastic resin;
- (B) polyphosphate compound; and
- (C) plasticizer.

DETAILED DESCRIPTION AN INDEPENDENT CLAIM is also included for fire proofing sheet made by forming the composition into a sheet.

USE The sheet adheres to e.g. ceilings, walls, or doors, and acts as a fire protective coating.

ADVANTAGE The sheet forms an expanded and foamed carbonized layer when heated which protects against fire and prevents the flow of gas during burning.
